

The Texas Gulf Coast Bull Terrier Club Rescue Report – February 26, 2010

Bullies in Need:

We are very fortunate this week to be able to help re-home six miniature Bull Terriers. Four of the little darlings have finished their veterinary treatment at Grand Park and are now ready for foster care and evaluation, and we couldn't wait to show off their sweet little faces. The rest of the gang are still under veterinary care and we'll know more about them soon.

Feather is a sweet little gal about 2 years old. So far she seems to be dog friendly and only *curious* about the cats. She can't get enough hugs and belly rubs! She is not a barker and is crate trained. Feather is spayed, chipped and vaccinated. She is heartworm positive so will have to return to the vet for treatment to begin next month, but appears healthy otherwise.

Sasha is about 5 years old and a total doll. She doesn't care if there is a cat under the coffee table but she's not too sure if she likes the other dogs. She is definitely a lap dog and, like Feather, is quiet and well behaved. Sasha is spayed, vaccinated and chipped. She too needs heartworm treatment, but seems to be a healthy lass.

Feather

Sasha

Hold onto your socks – **Apollo** has landed! This little 10 month old rocket is nothing but charming. He just loves everybody and everything. He is neutered, vaccinated, chipped and heartworm *negative*.

One word – AWWWWW!!! This is 3 ½ month old **Venus**. She is gentle, quiet, snuggly....oh, we could go on forever, but that innocent little face says it all. She will need some gentle guidance on potty training and social skills, but this bright young baby shouldn't take long to learn.

Apollo

Venus

Can you help an old boy in his Golden Years? This guy's owner has had a bit of bad luck befall him, so he is asking if anyone out there would be willing to give his beloved Epstein a roof over his head until he gets back on his feet. Epstein is a male Bull Terrier, about 11-12 years old, very friendly to other dogs and kids. We don't know about cats. He basically just enjoys hanging out with the family and snoozing. A low maintenance bloke but still full of Bully goodness! I can say from experience that "old Bullies are the best!" Can anybody out there help a bully friend in need? Epstein is currently in the Dallas area, but we could get him brought to Houston if someone can offer him a temporary home.

Epstein – he's the good looking one at the front!

Epstein in his usual mode

Another request for help this week comes in from our friends at Houston Pet Placement League. They are looking to rehome this great guy, Mullet! Aged around 2 yrs, he is very gentle, he asks you before he jumps up on you for loving, and is super in a crate. All he really wants is attention and love. He's not destructive (but will play with a toy until it falls apart!) Would do great with sturdy kids over 10 yrs, but no cats or small furies! Get in touch with us if you want more information on this super lad.

Mullet

Mullet plays ball!

Want some cool Bully Stuff? Then check this out!

THE BULLIBUD MOMS present the Tom O'Conner Memorial Rescue Auction - approx 90 items for bids.

Now at the Bullibud Moms Store Site - items are all up and running on the site for you to take a peek.

Auction officially opens for bids on Sunday February 28th and runs to March 14th.

<http://btlover1.shawwebspaces.ca>

Please remember that our meeting is on Sunday, February 28th at 2:00pm (**we need to start promptly at 2:00.**) Jim Burwell's Seminar will begin at 2:30pm until 3:30pm. Since we have been advised that we will have a larger than normal turn-out, we ask that dogs not be brought to this meeting. Meeting venue is Fondren Five Star Kennels, 14420 Fondren Road, Missouri City, Tx 77489 (281 835 4445). See y'all there!
