

The Texas Gulf Coast Bull Terrier Rescue Update – February 2, 2012

Bullies in Need:

Please complete our Adoption Application form if you can offer one of our wonderful Rescued Bullies a new forever home – www.texasbullterrier.org – click on the “Adoption Application” tab and submit the form online

Riley

Riley is a super girl, who loves to be petted and shown affection - in fact she absolutely demands it! Probably kept crated and used for breeding in her past, she has now recovered in foster care with Fred & Judy and they've done a wonderful job of transforming her back to her former beautiful self! Riley is now ready for a new home of her own where she can get all the lovin' she wants.

Riley – which is my best side, this one or this one?

Bambi

This tiny little girl joined us recently from Waco Humane Society with terrible skin conditions caused by neglect. Demodex was ruled out by Grand Park and she is now comfortable on antibiotics for the bacterial infection. She is improving daily but it will take a few more weeks of TLC before she is ready to get spayed and find her new forever home. She loves to be petted and held - and will wrap her legs around your neck so you can carry her around! Can anyone offer her a few weeks' peace & quiet in foster care?

Bambi on arrival ... and looking better already

Gabby

Not even a year old, this sweet baby was surrendered to the Houston SPCA, who then contacted us for help. She is settling well in foster care with Carmon & Dan and gets along great with all the other dogs. Her favorite trick is walking underneath the bigger dogs, until she gets to short-legged bullie Chloe where she gets stuck – so she just carries Chloe off with her! More news and updated pictures to follow soon. If you would like to give this darling baby a new forever home, please get in touch.

Gabby on arrival at Grand Park

Belle

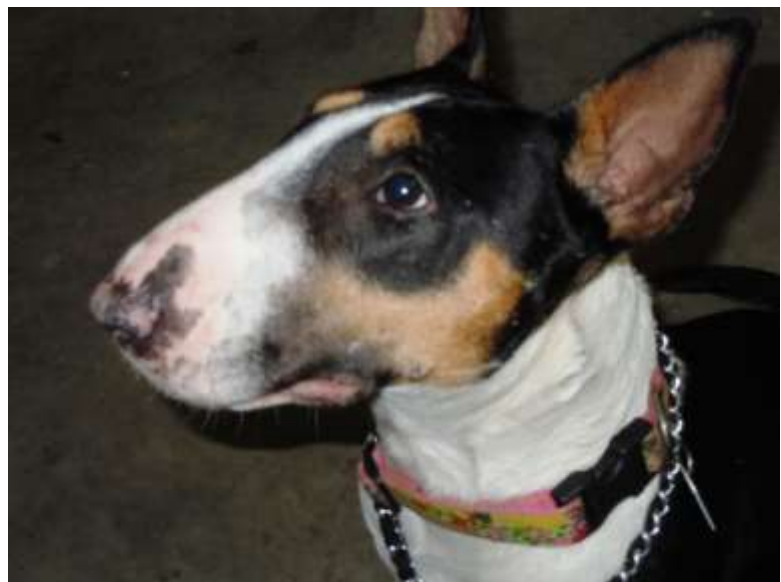

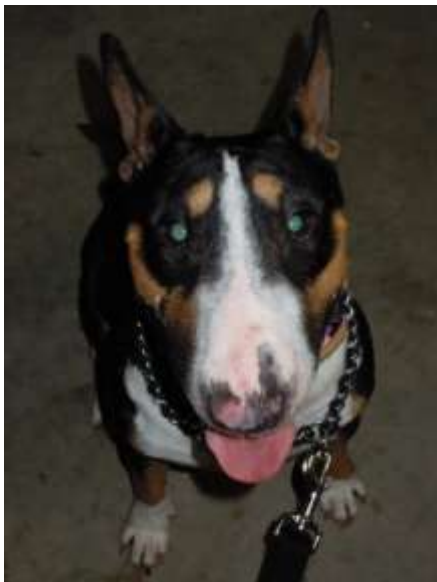

Another sweetie who hasn't celebrated her first birthday yet is Belle. She was found by some kind folks who contacted us and took her out to Grand Park. Belle had obviously been fending for herself for some time as she was extremely emaciated and had a tummy full of garbage. Now safe in foster care with Pegg, Belle is turning out to be the perfect girl! Pegg says: *"She just wags her whole rear end when she sees people or animals, but especially bullie Newbie! He is anxiously awaiting her ability to play...he bows to her all the time and can't figure out why I won't let go of the leash and let her follow. Belle isn't interested in the kitties other than wagging her tail when she sees them ... 2 of the cats have come up to her, sniffed, and they just look at each other...she doesn't even watch them as they walk away. So far we haven't found anything negative about her"* What a happy little girl!

Belle Looking much better already!

Jolly

Jolly by name and Jolly by nature, that's for sure. This pint-sized tri girl loves all the attention and will talk back with excitement when she's being petted! At around 3 years of age and 40 pounds, Jolly is very well behaved, walks nicely on leash and will happily sit for treats. She doesn't pay much attention to other dogs, preferring to be with humans. Unbelievable how anybody could abandon this precious girl tied to a tree. She will make an awesome family member!

Jolly looking jolly ... and trying to be serious!

Lily Lu

10 month old Lily Lu's previous owners kept her in the garage because they couldn't afford the treatment she so badly needed for demodex mange. A kind vet tech stepped in to help Lily, and TGCBT Club member Nicole gave her a ride into Houston. Lily is very sweet and submissive and gets along great with other dogs. As you can see from her photos, she has turned into a beautiful girl. Her vet treatment is now complete and she's ready to go! Gentle Lily will fit easily into any family with other dogs and children, but no cats!

Lily Lu on arrival and taking 'resting up in foster care' a little too seriously!

Bart

Is there a home out there for our Bart?! He has been waiting too long and needs a master of his own!

Bart is a sweet dog about two years old. He is super-active and needs plenty of exercise. He loves to be around people and gets along great with other dogs, so long as they tell him when they've had enough playtime or he'll just keep going!! Bart is generally well mannered and eager to please but he needs an owner who will be consistent with him, show him his boundaries and be the boss, otherwise he will take control and try to run the roost! Bart loves to play with toys and he is highly food motivated. Overall Bart is a wonderful companion. He would do well in a home without small children as he has had issues with being too mouthy in the past. A nice big yard and some active teenagers would be heaven!

Bart

Do you have a small space in your home and a bit of time to spare? Can you help us to help more Bullies in need of Rescue? Sadly, there are always dogs out there in horrible situations, crying out for our help – but without foster homes for them, we are limited on the number of dogs we can reach out to.

TGCBT Rescue is always in dire need of foster homes for dogs who need a place to recover from spay/neuter surgery and rest up for a week or two until they get back on their feet and we can find their ideal home. Our foster homes are supported by friendly volunteers whenever needed – and appreciated by very grateful dogs! Vet care and medication is provided, as is the dog's transport, food and other supplies, including crate, blankets, toys, etc. All you need to offer is a safe room for the dog to rest in, some regular exercise and plenty of TLC.

Fostering is a hugely rewarding experience and it could be a way of finding the Bullie of your dreams! If you want to talk more about becoming one of our wonderful Foster families, please contact us at: bullyrescue1@hughes.net
